WILLOW SPRINGS MAINTENANCE CAMP

Calif. Div. of Highways, Agent — Call Long Distance

To speed service Please look up The number first!

Each new issue of the Telephone Directory contains an important percentage of listings that are new or changed.

Many new telephones have been installed.

Many people have changed their places of residence or business.

PLEASE CONSULT THE DIRECTORY FIRST

How to make good telephone service even better....

You'll save time if you look up numbers before you call

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call? Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

Cowboy Clem

...figures that folks who share party-lines will all get the most from their service if they'll remember this round-up of party-line rules...

a round-up of party-line rules

Space your calls instead of making a whole series of them...and talk only as long as necessary.

If yours is an emergency call, and the line is in use, explain the circumstances to the person using the line.

If you are calling from a dial telephone, always make certain the line is clear before you dial.

When the children use the telephone, ask them to be considerate, too.

Replace the receiver properly when you finish your call.

Thank you!

It's easy to make friends on the telephone, too

1. When you answer promptly, you show friendly courtesy to the person calling. Of course, it's sometimes impossible to reach the telephone within the first ring or two, so when you're making a call, give the other person time to answer —at least six rings.

2. When you talk directly into the transmitter and speak naturally and distinctly, your voice will come through clearly. Lips about half an inch from the transmitter give best results. Your listeners will appreciate these little telephone courtesies and you won't have to repeat words as often.

3. When you look up numbers in the telephone directory, you help insure getting the right number when you call. Many telephone users keep a handy list of frequently-called numbers, for they know that a "wrong number" wastes their time and that of the other party.

Thank you!

The Pacific Telephone and Telegraph Company

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

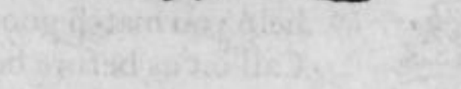
We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

The Pacific Telephone and Telegraph Company

Need help from a tree service expert? Find one fast in the Yellow Pages of your telephone book.

Use the Classified Directory often. Saves time in finding almost everyone in town who fixes things, sells things, does things.

You'll find it fast in the YELLOW PAGES



STATION RATES TO OUT-OF-TOWN POINTS

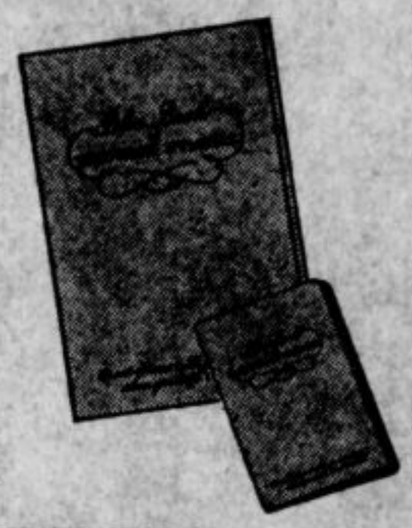
For FASTER SERVICE on Out-of-Town Calls



FREE Blue Book of Telephone Numbers in Two Sizes

Out of town calls go through faster when you give the operator the telephone number!

This attractive Blue Book of Telephone Numbers provides a handy place for keeping your personal list of out-of-town numbers. It is available in two sizes . . . large for home or office use and small for your pocket or purse.

To obtain the size you want without charge, just call, write or visit your business office.

See Inside Front Cover for rates from San Luis Obispo, Paso Robles and Arroyo Grande.

RATES FOR TYPICAL LONG DISTANCE CALLS

Here are some examples of station-to-station rates to out-of-town points. The rates shown are for three minutes and do not include Federal Tax. Person-to-person calls are slightly more than station-to-station calls. A collect call, to be billed to the number you are calling, costs no more than other calls except that the minimum charge for a collect call is 30c. Night and Sunday rates apply from 6:00 P.M. to 4:30 A.M. and all day Sunday.

CALIFORNIA HIGHWAY PATROL (For Emergency Calls Only) Ask Operator for **ZEnith 1-2000**
FEDERAL BUREAU OF INVESTIGATION (F.B.I.)—For the Telephone Number Call "Information"

Or you may call or dial Operator and ask for the particular Fire or Police Department you want. She will try to connect you.

We have prepared this list from the best information available, but cannot guarantee it is complete or in all cases correct.

It is a good idea to fill in the numbers below so you can refer to them quickly:

For FIRE, call_____ **For POLICE, call**_____ **For My DOCTOR, call**_____

HOW TO MAKE A SERVICE CALL

ASSISTANCE ON CALLS
To get help on a call dial **0** (zero) for **Operator.** From a non-dial telephone, ask for **Supervisor.**

BUSINESS TRANSACTIONS
To order a telephone, ask about your bill, etc., see **Pacific Telephone & Telegraph Co.** listings in this directory.

INFORMATION
To get telephone number information see page **2.**

REPAIR SERVICE
For repairs to your telephone, ask Operator for **Repair Service.**

TELEGRAMS
To phone a telegram, see **Western Union** listings in this directory. Telegram charges will appear on your regular telephone bill.

TIME OF DAY
In ARROYO GRANDE, dial 8900.
From OTHER TELEPHONES, ask Operator for TIME.
The charge for this call is the same as for any other local call.

HOW TO GET TELEPHONE NUMBER INFORMATION

FOR LOCAL NUMBERS not in this directory:

From DIAL telephones, dial Operator and ask for Information.

From NON-DIAL telephones, ask for Information.

FOR TELEPHONE NUMBERS AT ALL OTHER POINTS dial Operator, or from non-dial telephones ask for Long Distance. Then ask the operator who answers for Information for the place you want to call; for example: "I want Sacramento Information."

HOW TO USE YOUR TELEPHONE

HOW TO DIAL A CALL

Lift the receiver. Listen for a steady "humming" sound, the **dial tone.** Then dial. If the number includes a prefix be sure to dial the first two capitalized letters and numeral in the prefix, then the remaining numerals.

WHAT THE SIGNALS MEAN

You will know when the telephone you have called begins to ring, by the **ringing signal,** a "burring" tone repeated at regular intervals. Let it go on at least a minute before you hang up. That will give the person you are calling time to answer.

The **busy signal** is a steady "buzz-buzz" tone. When you hear it, hang up and wait a few minutes before dialing again.

A siren-like sound that rises and falls is the **dial-again signal.** It means there has been a mistake on the call. **No signal** after you dial may also mean a mistake. Hang up. Check the number you called to see if it was right. Then dial again—making sure you wait for the dial tone first and then dial the whole number. If there is still no signal, dial Operator and report the condition.

If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a **voice-recording signal.** This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO CALL SOMEONE ON YOUR PARTY LINE

To find out the number of a telephone on your party line, call **Repair Service.**

To call another party on your line dial a **special number** you can get from **Repair Service.** When you finish dialing, replace your receiver. Your telephone and the called telephone will ring at regular intervals. Ringing will stop when the called telephone answers. Lift your receiver and begin conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

CALLS YOU CAN DIAL YOURSELF

Are you calling from a dial telephone? Then you can dial a call to any other dial telephone in the same exchange.

CALLS YOU PLACE THROUGH OPERATOR

There are certain calls you place through an operator:

From **dial** telephones..... all Station-to-Station Long Distance calls
all Person-to-Person calls
all Collect calls

From **non-dial** telephones..... all calls

Station-to-Station Calls

When you will talk with anyone who answers the called telephone, you make the call "station-to-station."

Tell the Operator the name of the city and the telephone number you want. If you do not know the number, give the Operator the name and address the telephone is listed under and tell her you will talk with anyone who answers.

Person-to-Person Calls

When you want to talk to a particular person, department or extension, you can make the call "person-to-person". The charge for this kind of call is slightly more than for a "station-to-station" call.

Tell the Operator the name of the city . . . the telephone number (or the name and address the telephone is listed under) . . . and tell her what person, department or extension you want.

Collect Calls

When you want your call billed to the number you are calling, you can make the call "collect".

Tell the Operator when you place the call—not afterwards—that you want it made "collect".

The minimum charge for a "collect" call is 30c. Otherwise, collect calls cost the same as other calls.

Other Long Distance Calls

It will help also if you ask for:

International Operator ..... on calls overseas or to Alaska
Marine Operator ..... on calls to ships and planes
Mobile Service Operator..... on calls to autos, trucks, trains

Upon request, the Operator will notify you at the end of a stated period of time on long distance calls.

FOUR *Thoughtful* ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

extension telephones are so handy yet cost so little

For only a few pennies a day you can enjoy the convenience of an extra telephone in your home.

Extensions go almost anywhere in the home—in the bedroom or basement . . . in the den, kitchen, or garage . . . wherever you spend a lot of time. And the cost is small . . . only pennies a day. We can offer this service again because extensions require only additional telephone sets, not outside cables and central office facilities.

To order your extension, just call your Pacific Telephone Business Office.

Pacific Telephone

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!" —it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls. So, next time your telephone rings, won't you try to answer as quickly as you can?

Pacific Telephone

Long distance calls

mean so much

cost so little

A long distance "visit" costs so little anytime you call—day or night. It's a special bargain after 6 p.m. on weekdays and all day Sunday.

★ Low long distance rates to many cities are shown on the inside cover of this directory.

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

The Pacific Telephone and Telegraph Company

Share a party line?

These easy pointers can help you and your party line neighbor enjoy even better telephone service: When you have a series of calls to make, allow a few minutes between them • Replace the receiver properly after calling • If you have a dial telephone, make sure the line is not in use before you dial • Ask the children to be considerate, too. You'll not only be a good telephone neighbor if you do . . . but others will have a better chance to reach you!

Pacific Telephone

how to use...

The Yellow Pages

in stormy weather

Your telephone plus the Classified Directory make a most efficient combination to combat stormy weather shopping problems. Many firms make a specialty of telephone orders and list such items as delivery service, personal shoppers, etc., in their Classified advertising.

for brand names

To obtain the local dealers of nationally advertised products or services, simply turn to the classified heading descriptive of the product or service, and there you will find an alphabetical list of the distributors, dealers or agents.

if you are in business

Surveys show that 9 out of 10 people use the Classified Directory. Be sure that your present and future customers can find you by listing your name under all the headings descriptive of the products you carry or services you render. It also pays to tell a complete story about your business under these headings. Display space is available in several different sizes.

QUICK BRASS CLEANER
You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Emergency!

An emergency arises—you need help quickly! Physician, hospital, ambulance, taxi or plumber! The quickest way of finding whom to call is to—

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be placed again . . . does not monopolize the telephone at the inconvenience of others . . . teaches children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

ONIONLESS ONION
If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the Spuds the flavor of onion.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

H. I. O. CHIROPRACTIC

"it's Different"

H. I. O. Chiropractic removes the cause of Dis-Ease. Our office is fully equipped with neurocalometer, X-Ray, Fluoroscope.

What is H. I. O. Chiropractic? H. I. O. Chiropractic is the modern up-to-date Chiropractic system of locating the exact point of nerve pressure and removing that pressure in a specific manner by hand only.

The Neurocalometer is a scientific precision instrument that locates the nerve pressure which is the cause of Dis-Ease. The X-Ray pictures the abnormal condition and position of the spinal bone or bones that cause the nerve pressure resulting in Dis-Ease.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Rigid or flexible telephone conduit can be easily and quickly installed during construction of your new home. Be sure your plans specify built-in conduit.

You can make telephone service in that new house you're planning much more convenient if you provide for concealed wiring and handy outlets. For free help, call your local Pacific Telephone office and ask for Architects and Builders Service.

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Good neighbors are considerate party-line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

QUICK BRASS CLEANER

You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.

PREVENT THAT ACCIDENT

To make a safe, convenient rack for your glass coffee maker top, remove the cover and cross supports from an old lamp shade.

Please
DIAL CAREFULLY

Careless dialing puts other people to needless bother—and delays your call. Please make sure of the right number, *listen for the dial tone*, then dial carefully.

TASTY TIP

A dash of hot coffee added to pan drippings enriches flavor and color of gravy from steaks, chops or ham.

FOR BEST RESULTS WITH YOUR TELEPHONE
please . . .

Make sure of the number. If in doubt consult the Telephone Directory.

Speak with lips close to the mouthpiece, using your natural tone of voice.

And give the called person TIME to answer!

Thank You!

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

A handy man for any job--

The Yellow Pages tell you where to reach him quickly —plumber—carpenter—dry cleaner—paperhanger —and hundreds of other workmen, stores and services.

ONIONLESS ONION

If you like potato salad but do not like raw onion, you might try boiling an onion in the water in which you are boiling the potatoes for the salad. This gives the Spuds the flavor of onion.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

EXPLOSION IN OVEN?

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Here's how you may be sure of getting your party more often when you dial.

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

A handy man for any job--

The Yellow Pages tell you where to reach him quickly —plumber—carpenter—dry cleaner—paperhanger —and hundreds of other workmen, stores and services.

Good neighbors are considerate party-line users. Remember these party-line golden rules:
- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Emergency!

An emergency arises—you need help quickly! Physician, hospital, ambulance, taxi or plumber! The quickest way of finding whom to call is to—

EXPLOSION IN OVEN?

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Good neighbors are considerate party line users. Remember these party-line golden rules:
- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Always keep Receiver On the HOOK

When you are through talking on the telephone, always see that you place the receiver back on the hook. Otherwise you may miss an important call.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be placed again . . . does not monopolize the telephone at the inconvenience of others . . . teaches children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE–

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

Good neighbors are considerate party-line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good neighbors are considerate party line users. Remember these party-line golden rules:

- Space your calls instead of making several of them without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear to receive your call.
- Ask your youngster not to monopolize the telephone.

Busiest Book in the World

The familiar telephone directory is America's No. 1 reference book. It is the busiest book in the world because it is helpful to practically everyone.

Wise buyers know that the Yellow Pages are the quickest way to get up-to-date purchasing information.

When the name of a BUSINESS HOUSE has been forgotten

...or when you are new to the city, or when you simply want to find a telephone number the quickest way...

Look in the
YELLOW PAGES

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

Here's how you may be sure of getting your party more often when you dial

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

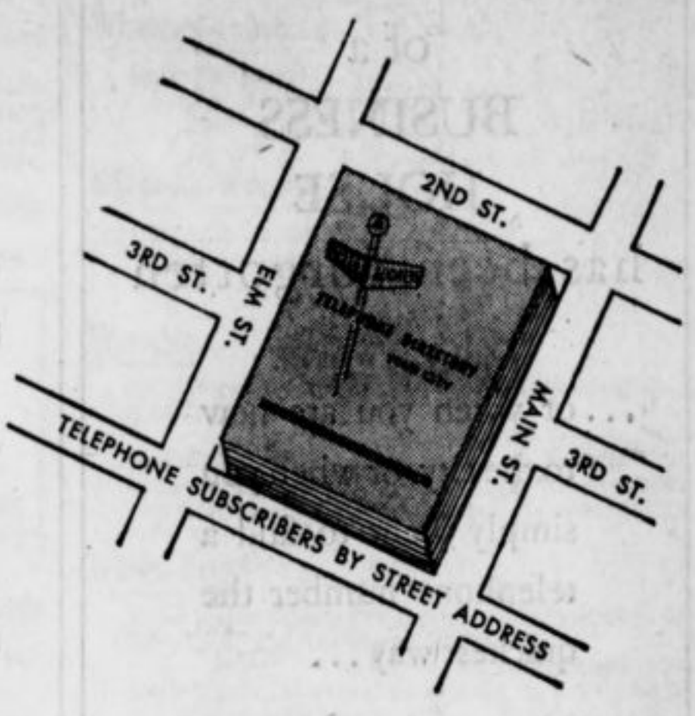
To Find an AUTHORIZED SALES AND SERVICE DEALER

When you want the "genuine" in a nationally-advertised product or service

LOOK IN THE YELLOW PAGES

They Tell "Where to Buy It"

SAVE STEPS—TIME AND MONEY



YOU CAN IF YOU USE THE NEW STREET ADDRESS TELEPHONE DIRECTORY FOR MORE EFFICIENT OPERATION IN YOUR BUSINESS

IF YOU HAVE SALESMEN OR SELL BY TELEPHONE

It is easy to secure the prospect's name when the only lead you have is the address. Telephone solicitation can be confined to certain areas — selected streets — particular addresses.

IF YOU ADVERTISE BY DIRECT MAIL

It saves you money on postage, for you are assured of the latest correct addresses. With this directory you can block out the more select areas of the city for your mailing campaign, or take in all areas if so desired.

IF YOU CARRY CHARGE ACCOUNTS OR HAVE A COLLECTION PROBLEM

It can be an important aid in verifying telephone orders — verifying an illegible name where address is correct —verifying names for cashing checks — locating customers who have moved — locating delinquent debtors.

IF YOU HAVE DELIVERY SERVICE

Preparing routes by streets and areas — verification of name when only address is known — pick-ups and deliveries—locating deliveries to wrong addresses.

Hundreds of firms subscribe to this Directory, and depend on its information, which is as accurate as your Telephone Book.

WILLOW SPRINGS MAINTENANCE CAMP
Calif. Div. of Highways, Agent — Call Long Distance

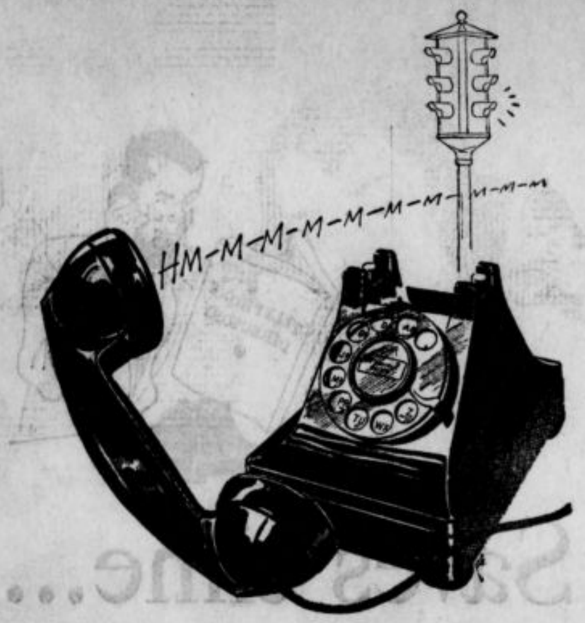
FOUR *Thoughtful* ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

Saves time...

to look up numbers before you call

You'll get numbers right the first time if you look up those there's some question about. Telephone numbers have a way of getting twisted when you rely on memory alone. So, if there's any doubt, look up the number. Thank you.



There's a "go signal" on your dial telephone, too

The steady "hum-m-m" of the dial tone tells you it's time to go ahead and dial. That's your telephone's way of saying the equipment is ready to handle your call. During busiest hours, you may have to wait a few moments for the tone. But please wait until you hear it before you dial. For that's the only way the equipment can serve you properly. Thank you.

Yours for the asking...this free booklet

is an easy way to keep an up-to-date list of local and out-of-town numbers you call often. It's convenient, too, for jotting down new numbers . . . so you'll have them handy the next time you need them.

How to get your free booklet For your free personal number booklet—just telephone, send a postcard, or drop in at your nearest Pacific Telephone business office. Why not get your copy today!

Pacific Telephone

California's most USED advertising medium
THE YELLOW PAGES
of your telephone directory

more than nine out of ten California people use THE YELLOW PAGES
one out of two California businesses advertise in THE YELLOW PAGES

AND HERE'S WHY

CALIFORNIA PEOPLE have found that the Telephone Directory's Yellow Pages afford them a quick, easily used index of the firms that handle the products and services they want to buy.

CALIFORNIA BUSINESSES have found that advertising in the Telephone Directory's Yellow Pages is one of the best ways to attract customers for the products and services they sell.

YOUR GUIDE TO PROFITABLE ADVERTISING

Your telephone Directory Representative can help you make the most profitable use of your advertising in the Yellow Pages of the Telephone Directory. He's a regular employee of your telephone company, specially trained to advise you, not only on what type of advertising to use, but also on how to train your organization to make it produce results. Call your Telephone Business Office, they will arrange to have a man contact you.

Pacific Telephone

For rates from San Luis Obispo and Paso Robles see Inside Front Cover.

ON THE FRONT COVER

Morro Rock, rising nearly 600 feet above the ocean, is one of the outstanding landmarks of the Pacific Coast. It was first charted by Cabrillo in 1542 as "Moro" for Moroccan, or Moor Rock. Over 200 years later Father Crespi, a member of Portola's expedition, wrote in his diary of sighting a great "Morro" or dome.

At its base, the huge rock covers nearly 50 acres.

There's nothing like a Long Distance call to keep you in touch

Next to being there in person, there's nothing quite so warm and satisfying as a visit across the miles by telephone. The cost is surprisingly low—especially after 6 o'clock in the evening and all day Sunday.

See how little it costs to call those who miss the sound of your voice.

You can call clear across the country for only $2.00 for 3 minutes.

SEE THE "CLASSIFIED" IN THIS DIRECTORY

ITS YELLOW PAGES TELL YOU "WHERE TO BUY IT"

CALIFORNIA TELEPHONE DIRECTORIES

WHITE PAGES

LOCALITY: San Luis Obispo, Avila Beach, Baywood Park, Camp San Luis Obispo

YEAR: October 1956

SAN LUIS OBISPO
COUNTY
TELEPHONE DIRECTORY

OCTOBER 1956

Effective Sunday, **September 16**, all **SAN LUIS OBISPO** and **ARROYO GRANDE** telephone numbers **CHANGE** and will include prefixes:

San Luis Obispo – LI 3 for LIberty 3

Arroyo Grande – HU 9 for HUnter 9

In addition, the **Pismo Beach** prefix will change to **PRospect 3**

USE THE NEW NUMBERS STARTING SUNDAY, SEPTEMBER 16

For **San Luis Obispo, Arroyo Grande** and **Pismo Beach** numbers, use your old directory until September 16, then destroy it.

RATES FOR TYPICAL LONG DISTANCE CALLS

Here are some examples of station-to-station rates to out-of-town points. The rates shown are for three minutes and do not include Federal Tax. Person-to-person calls are slightly more than station-to-station calls. A collect call, to be billed to the number you are calling, costs no more than other calls except that the minimum charge for a collect call is 30c. Night and Sunday rates apply from 6:00 P.M. to 4:30 A.M. and all day Sunday.

CALIFORNIA HIGHWAY PATROL (For Emergency Calls Only) Ask Operator for **ZEnith 1-2000**
FEDERAL BUREAU OF INVESTIGATION (F.B.I.)—For the Telephone Number Call "Information"

Or you may call or dial Operator and ask for the particular Fire or Police Department you want. She will try to connect you.

We have prepared this list from the best information available, but cannot guarantee it is complete or in all cases correct.

It is a good idea to fill in the numbers below so you can refer to them quickly:

For FIRE, call_____ **For POLICE, call**_____ **For My DOCTOR, call**_____

Please give up the line without delay if your party line neighbor asks for the line to make an emergency call. Your courtesy may save both life and property.

HOW TO MAKE A SERVICE CALL

ASSISTANCE ON CALLS—To get help on a call dial **0** (zero) for **Operator.** From a non-dial telephone, ask for **Supervisor.**

BUSINESS TRANSACTIONS—To order a telephone, ask about your bill, etc., see **Pacific Telephone & Telegraph Co.** listings in this directory.

INFORMATION—To get telephone number information see page 2.

REPAIR SERVICE—For repairs to your telephone:
In ARROYO GRANDE and SAN LUIS OBISPO Dial "114."
From OTHER telephones, ask Operator for Repair Service.

TELEGRAMS—To phone a telegram, see **Western Union** listings in this directory. Telegram charges will appear on your regular telephone bill, or you can deposit the charge in the box when you call from a pay telephone.

TIME OF DAY—In ARROYO GRANDE and SAN LUIS OBISPO, dial ROchester 7-8900.
From OTHER TELEPHONES, ask Operator for TIME.

The charge for this call is the same as for any other local call.

HOW TO GET TELEPHONE NUMBER INFORMATION

FOR LOCAL NUMBERS not in this directory:

From DIAL telephones:
In ARROYO GRANDE and SAN LUIS OBISPO, dial 113.
From OTHER DIAL telephones, dial Operator and ask for Information.

From NON-DIAL telephones, ask for Information.

FOR TELEPHONE NUMBERS AT ALL OTHER POINTS dial Operator, or from non-dial telephones ask for Long Distance. Then ask the operator who answers for Information at the place you want to call; for example: "I want Sacramento Information."

HOW TO USE YOUR TELEPHONE

HOW TO DIAL A CALL

Lift the receiver. Listen for a steady "humming" sound, the **dial tone.** Then dial. If the number includes a prefix be sure to dial the first two capitalized letters and numeral in the prefix, then the remaining numerals.

WHAT THE SIGNALS MEAN

You will know when the telephone you have called begins to ring, by the **ringing signal,** a "burring" tone repeated at regular intervals. Let it go on at least a minute before you hang up. That will give the person you are calling time to answer.

The **busy signal** is a steady "buzz-buzz" tone. When you hear it, hang up and wait a few minutes before dialing again.

A siren-like sound that rises and falls is the **dial-again signal.** It means there has been a mistake on the call. **No signal** after you dial may also mean a mistake. Hang up. Check the number you called to see if it was right. Then dial again—making sure you wait for the dial tone first and then dial the whole number. If there is still no signal, dial Operator and report the condition.

If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a **voice-recording signal.** This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO CALL SOMEONE ON YOUR PARTY LINE

From LIberty 3 telephones:

Dial the listed number. When you hear the high pitched party-line signal here's what to do.

If there is a single numeral on your dial number plate opposite "PTY Code" dial that numeral after you hear this tone. When you hear a "busy" signal hang up. If there is no numeral on your number plate opposite "PTY Code" hang up as soon as you hear the high pitched tone. Your phone and the called phone will ring at regular intervals. Ringing will stop when the called telephone answers. Then lift the receiver and start conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

From ALL OTHER telephones:

To find out the number of a telephone on your party line, call **Repair Service.**
To call another party on your line dial a **special number** you can get from **Repair Service.** When you finish dialing, replace your receiver. Your telephone and the called telephone will ring at regular intervals. Ringing will stop when the called telephone answers. Lift your receiver and begin conversation.

If ringing does not stop after a reasonable period, you can stop it by lifting your receiver.

NOV 15 1956 A 260451

CALLS YOU CAN DIAL YOURSELF

Are you calling from a dial telephone? Then you can dial a call to any other dial telephone in the same exchange.

If you have a one or two party LIberty telephone (San Luis Obispo) in addition to the above, you can dial the following telephones: HUnter 9 (Arroyo Grande), PRospect 3 (Pismo Beach), SPruce 2 (Morro Bay), WAverly 4 (Cambria). Calls to these points are station-to-station long distance calls and long distance rates apply. Please be sure you have the right number and dial it correctly.

CALLS YOU PLACE THROUGH OPERATOR

There are certain calls you place through an operator:

From **dial** telephones	all Station-to-Station calls that you cannot dial yourself
	all Person-to-Person calls
	all ENterprise calls
	all Collect calls
From **non-dial** telephones	all calls

Station-to-Station Calls

When you will talk with anyone who answers the called telephone, you make the call "station-to-station."

Tell the Operator the name of the city and the telephone number you want. If you do not know the number, give the Operator the name and address the telephone is listed under and tell her you will talk with anyone who answers.

Person-to-Person Calls

When you want to talk to a particular person, department or extension, you can make the call "person-to-person". The charge for this kind of call is slightly more than for a "station-to-station" call.

Tell the Operator the name of the city . . . the telephone number (or the name and address the telephone is listed under) . . . and tell her what person, department or extension you want.

Collect Calls

When you want your call billed to the number you are calling, you can make the call "collect".

Tell the Operator when you place the call—not afterwards—that you want it made "collect". The minimum charge for a "collect" call is 30c. Otherwise, collect calls cost the same as other calls.

Other Long Distance Calls

It will help also if you ask for:

Overseas Operator	on calls overseas or to Alaska
Marine Operator	on calls to ships and planes
Mobile Service Operator	on calls to autos, trucks, trains

Upon request, the Operator will notify you at the end of a stated period of time on long distance calls.

FOUR *Thoughtful* ITEMS
OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

For convenience in the future...

put telephone facilities

in your plans

The blue-print stage is the time to include built-in telephone conduit and outlets. During construction, the cost is trifling. Just a few pieces of pipe or other conduit material leading to convenient outlet locations will provide raceways for telephone wires. Later on telephones can be added—or moved to other locations—without drilling holes or running wire along baseboards.

For free help in planning modern, built-in telephone wiring, call your local telephone company number and ask for free "Architects and Builders Service."

NEWSPAPER FIREWOOD
To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Why Not?

When you select someone to supply your needs, make it a point to tell them that you found their advertisement in the . . .

H. I. O. CHIROPRACTIC

"it's New"

H. I. O. Chiropractic removes the cause of Dis-Ease. Our office is fully equipped with neurocalometer, X-Ray, Fluoroscope.
What is H. I. O. Chiropractic? H. I. O. Chiropractic is the modern up-to-date Chiropractic system of locating the exact point of nerve pressure and removing that pressure in a specific manner by hand only.
The Neurocalometer is a scientific precision instrument that locates the nerve pressure which is the cause of Dis-Ease. The X-Ray pictures the abnormal condition and position of the spinal bone or bones that cause the nerve pressure resulting in Dis-Ease.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

You can make telephone service in that new house you're planning much more convenient if you provide for concealed wiring and handy outlets. For free help, call your local Pacific Telephone office and ask for Architects and Builders Service.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

NAIL POLISH FOR METAL

To keep the bright metal bands on kitchen sinks and counters from staining your apron black, touch up the bands with colorless lacquer. If you can't get the lacquer, colorless nail polish will do.

ANTICIPATING Your Emergency SITUATIONS...

Most business firms advertise in the YELLOW PAGES to make it easy for you to find them.

They would appreciate your telling them that you called because of their advertising in the

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

As one friend TO ANOTHER

Please speak distinctly, when you telephone, with lips close to the mouthpiece. It is just as important to talk directly into the transmitter as it is to keep your ear close to the receiver.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

2 Great New Beltone advances for the deaf!
BELTONE HEARING GLASSES hide deafness

as never before for both men and women!
No outside Cord or Receiver. Complete hearing aid hidden inside one temple of glasses. Sounds carried to ear by tiny, almost invisible tube.
If you don't wear glasses . . . try
HIGHER FIDELITY HEARING
—with Beltone's latest Operetta all transistor model.

Here's how you may be sure of getting your party more often when you dial:
1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Party Line Pointers:
1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

QUICK BRASS CLEANER

You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.

Unless you wait for the steady **hummmming** sound of the dial tone, the equipment cannot put through your call. Please wait for the dial tone before you start to dial.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

EXPLOSION IN OVEN

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Have the right number when you call. It's natural to trust to memory—but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number—won't you look it up in the telephone directory?

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Emergency!

An emergency arises — you need help quickly! Physician, hospital, ambulance, taxi or plumber! The quickest way of finding whom to call is to—

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

ARCHITECTS & BUILDERS SERVICE

Free advisory service on advance planning of telephone facilities in new building construction is available to architects, owners and builders. Costly alterations are frequently avoided through proper advance planning.

"SERVICE RENDERED BY"

PACIFIC TELEPHONE & TELEGRAPH CO THE
Call Your Local Business Office Listed Below

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Please distinguish between the black letter "O" and the red numeral "0" (zero) when dialing. Be sure to bring your finger all the way around to the finger stop for each letter or digit and then release the dial without forcing or retarding its return.

EXPLOSION IN OVEN

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Always keep Receiver

On the HOOK

When you are through talking on the telephone, always see that you place the receiver back on the hook. Otherwise you may miss an important call.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

OUT of the DISCARD

A few minor repairs on that discarded article will restore its life of usefulness and convenience. You'll find the man who can help you listed in the

Classified TELEPHONE SECTION

When the NEED is URGENT

Whether the situation requires a batteryman, garage, radio repairman, veterinarian or other service

Look in the

Classified TELEPHONE SECTION

far from home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

Share a party line?

These easy pointers can help you and your party line neighbor enjoy even better telephone service: When you have a series of calls to make, allow a few minutes between them • Replace the receiver properly after calling • If you have a dial telephone, make sure the line is not in use before you dial • Ask the children to be considerate, too. You'll not only be a good telephone neighbor if you do . . . but others will have a better chance to reach you!

Pacific Telephone

WITHIN EASY REACH for BUSY PEOPLE

in YOUR TELEVISION ROOM

A telephone will serve you well when located close to your favorite chair in the television room. No need to miss a part of any program to answer your important calls.

or at YOUR BEDSIDE

You will find a telephone a real comfort, ready at your fingertips during your resting hours. When sickness or confinement strikes, it is your tie to friends and pleasant moments. In an emergency, a link to help and security.

CALL YOUR PACIFIC TELEPHONE SERVICE REPRESENTATIVE

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

Calif Div of Highways, Agent
Call Long Distance

Long distance calls

mean so much
cost so little

A long distance "visit" costs so little anytime you call—day or night. It's a special bargain after 6 p.m. on weekdays and all day Sunday.

★ **Low long distance rates to many cities are shown on the inside cover of this directory.**

When you dial

numbers which include a central office name

please remember...

Always dial the first two letters and the numeral in the central office name... followed by the remaining figures in the number.

How to make good telephone service even better....

You'll save time if you look up numbers before you call

Have you ever had the feeling that you're *not quite sure* of a familiar telephone number you're about to call? Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers *before* you call. You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

Pacific Telephone

How to make good telephone service even better....

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!" —it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls. So, next time your telephone rings, won't you try to answer as quickly as you can?

Pacific Telephone

how to use...

The Yellow Pages

as a shopping service

Shopping by telephone saves both your time and energy. Just turn to the classified heading descriptive of the product or service you desire and there you will find a convenient, alphabetical list of dealers who are equipped to fulfill your needs as courteously and efficiently as though you had visited their places of business personally.

need something in a hurry?

When you need help in a hurry the lists under each Classified Heading are ready and waiting to help. Just turn to the heading descriptive of the service or product you need and select the firm who can give you prompt and efficient assistance.

if you have forgotten...

If you can't recall the name of a particular firm but do remember the location just turn to the classified heading describing their business and check the list which will show the address you recognize. If, on the other hand, you have forgotten the address but remember the name, it is very easy to locate the firm in the comparatively small group listed under each classified heading.

LOCATED for CONVENIENCE

in YOUR KITCHEN

Extra pleasure and comfort are yours when you have a telephone in your kitchen. It is so handy for receiving calls while baking or cooking those dishes that need your constant attention. When placing calls, you will also enjoy this modern convenience.

or YOUR LAUNDRY

Ever have your telephone ring when you were in the laundry? Imagine what it would be like to have a telephone within easy reach. No more running through the house or upstairs to catch it before it stops ringing.

CALL YOUR PACIFIC TELEPHONE SERVICE REPRESENTATIVE

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

The Pacific Telephone and Telegraph Company

For rates from San Luis Obispo and Paso Robles see Inside Front Cover.

ON THE FRONT COVER

Santa Margarita Lake Recreation Area, established in 1956 for the benefit of residents and visitors of San Luis Obispo County, utilizes the impounded waters of the upper Salinas River. Constructed in 1941, the dam is about 460 feet long and 135 feet high. When filled, the lake holds 26,000 acre feet of water extending about six and one-half miles upstream between the Santa Lucia and La Panza Ranges.

COMPLETE TELEPHONE SERVICE FOR YOUR HOME
